BeRin!

Brainstorming:

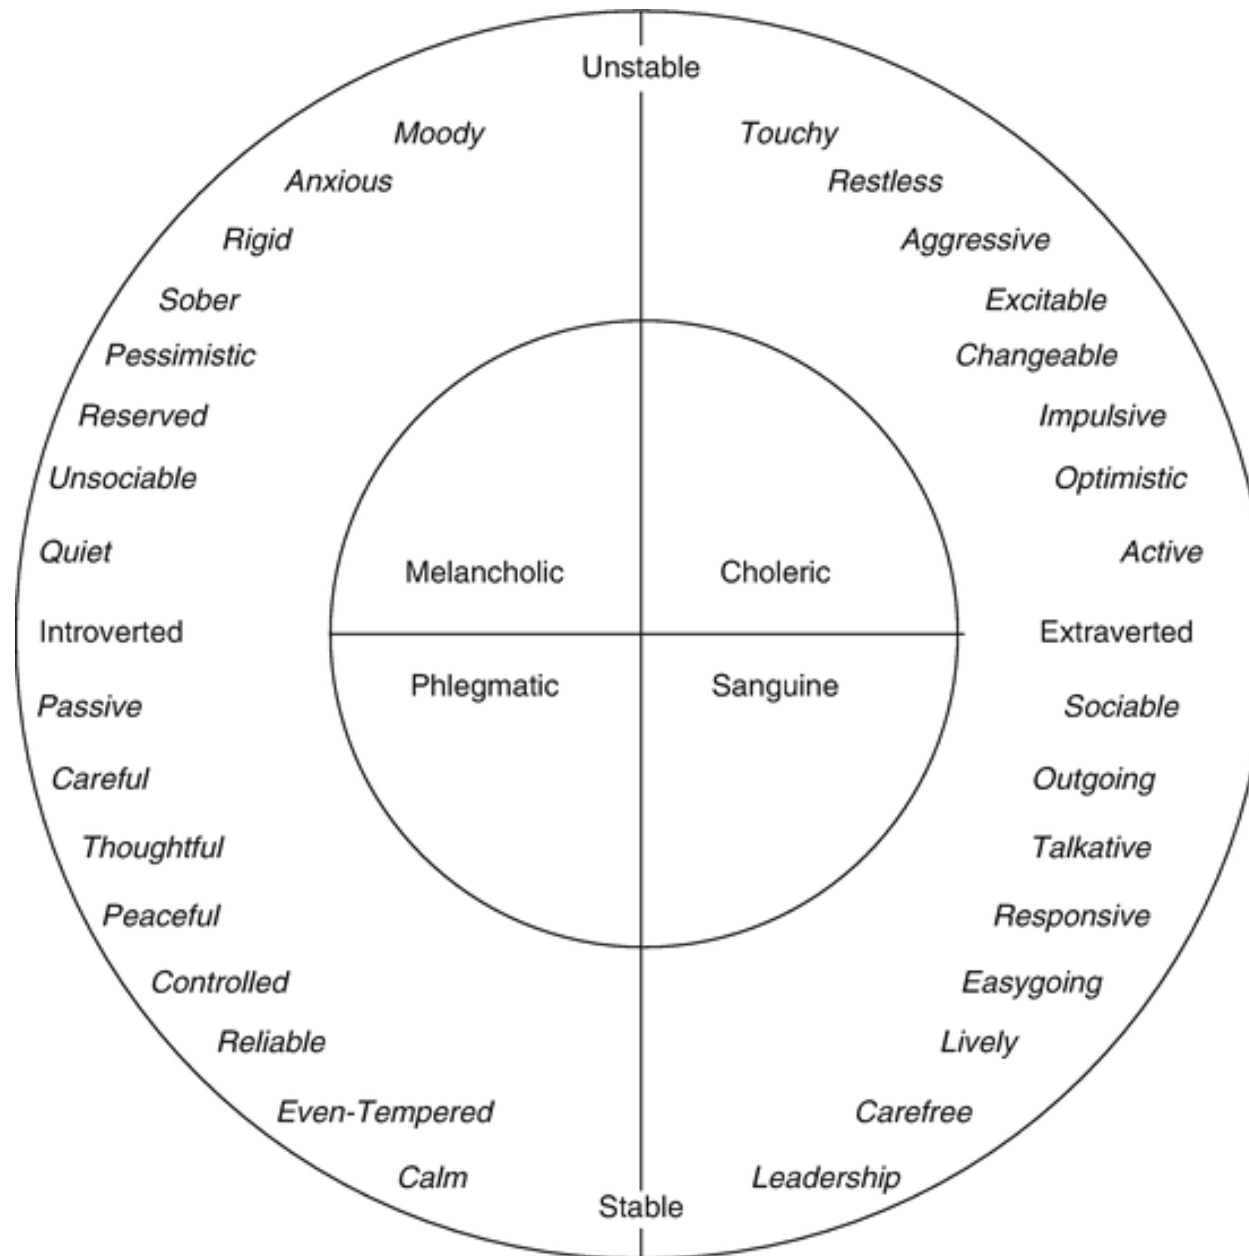

human, **emotion**, mood, qualities, thoughts, ideas, opinions,
uniqueness, diversity, difference, lability, introvert, extrovert,
temperament ...

Temperament

A person's or animal's nature, especially as it permanently affects their behaviour.

"How do you feel when ...?"

How do you feel when you run out of toilet paper?

Happines= I can call someone to bring me new one.

Sadness = I'm sad that this always happens to me.

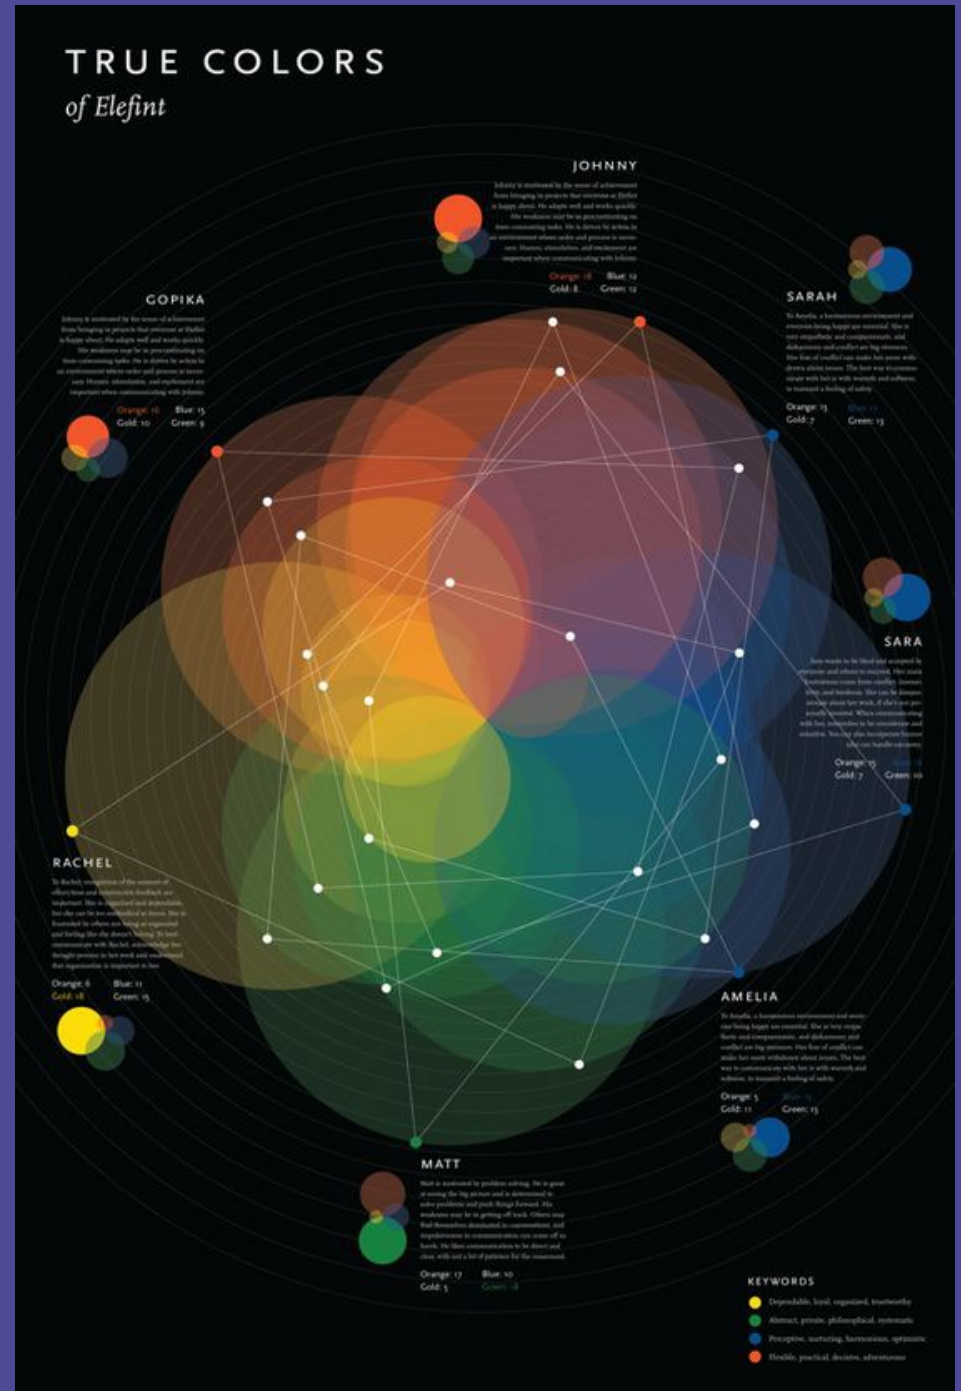

Anger = I'm upset that it always happens to me.

Indifference = Whatever...someone will just bring me
a new one.

DEPOSITOR IP PORTFOLIOS MAPPING

Depositor IP portfolios were mapped to existing SAE technology nodes. Every SAE technology node can be mapped to at least one Depositor. Our bill of SAE technology spend areas have two or more depositor overlap. We found even greater Technology Reserve demand from SAE that have needs to integrate and embed complete information technologies married to materials and hardware. Many industries are now grappling with the challenges posed by emerging demand for an 'Internet of things' world and, further, that this emerging demand is also challenging traditional industrial business models.
